

Guide to Common Invertebrates of the Boston Harbor Islands

Key to feeding habits (definitions below):

 Herbivore
  Pollinator
  Predator/Parasite
  Scavenger/Decomposer

<p>Snails and Slugs (Gastropoda)</p>  <p></p>	<p>Beach Fleas, Scuds (Amphipoda)</p>  <p></p>	<p>Pillbugs, Sowbugs (Isopoda)</p>  <p></p>
<p>Earthworms (Oligochaeta)</p>  <p></p>	<p>Millipedes (Diplopoda)</p>  <p></p>	<p>Centipedes (Chilopoda)</p>  <p></p>
<p>Spiders (Araneae)</p>  <p></p>	<p>Daddy-long-legs (Opiliones)</p>  <p> </p>	<p>Mites & Ticks (Acari)</p>  <p>  </p>
<p>Dragonflies & Damselflies (Odonata)</p>  <p></p>	<p>Moths & Butterflies (Lepidoptera)</p>  <p></p>	<p>Springtails (Collembola)</p>  <p>  </p>
<p>Grasshoppers, Crickets, etc. (Orthoptera)</p>  <p></p>	<p>Earwigs (Dermaptera)</p>  <p></p>	<p>Wood Roaches (Blattodea)</p>  <p></p>
<p>Lacewings (Neuroptera)</p>  <p></p>	<p>True Bugs (Hemiptera)</p>  <p> </p>	<p>Leafhoppers, Aphids, Cicadas, etc. (Hemiptera)</p>  <p></p>
<p>Ants (Formicidae, Hymenoptera)</p>  <p> </p>	<p>Bees & Wasps (Hymenoptera)</p>  <p>Bees  Most wasps </p>	<p>Beetles (Coleoptera)</p>  <p>   </p>
<p>Larvae (many insect orders)</p>  <p>  </p>	<p>Flies, Mosquitoes, & Gnats (Diptera)</p>  <p>   </p>	<p> Eat live plants (leaves, wood...)  Eat pollen and often nectar  Eat live animals  Eat dead plants, animals, "waste"</p>
